2435

The **Daumar CB-48v2** makes the exclusive **"D-pack"** vertical bag – the first and only mesh/poly bag that stands upright and has a carrying handle.

- ✓ POTATOES
- ✓ ONIONS
- ✓ CITRUS
- ✓ APPLES
- ✓ STONE FRUIT
- ✓ TREE FRUIT
- ✓ TOMATOES

The D-pack is very versatile and allows you to personalise your packaging in many ways.

The bag can be constructed of either tubular extruded net, tubular knitted net or tubular raschel mesh and can have variable width front and back film. It has the option of two punched finger holes instead of the carry handle. Plus a choice of mesh colours. You can even print bar-codes, weights, etc. right onto the bag.

The **Daumar CB-48v2** is designed to handle citrus, potatoes, onions and any other produce that doesn't need delicate handling. It makes, fills and seals bags ranging from 1kg to 4.5kg.

The optional **Daumar CB-48S** is designed specially for handling delicate produce such as apples, stone fruit, tree fruit and tomatoes.
