edp[®] checkweigher

The new edp[®] check-weigher has been introduced to eliminate costly returns from ever demanding retailers.

The check-weigher can be fitted to any combination weigher to do a final check of the bagged product prior to dispatch. It gives the supplier peace of mind that product weights are correct.

The revolutionary speed cell maintains accurate weighing at speed, combined with electronics that are CE approved and can be weighed and measured approved.

This makes the check-weigher ideal for most requirements.
